VET POWER - EMPOWERING VET IN WORK-BASED LEARNING, ELECTRICITY, AND INTERNATIONALISATION STRATEGY

VET-POWER is a capacity building project that aims to strengthen the skills of trainers and improve the quality of vocational education in Africa and Europe. VET-POWER was born from the collaboration between six international partners that's brings together European and African institutions with the common goal of innovating and improving vocational training , responding to the needs of an ever-changing world of work.

STRENGTHENING VET SYNERGY: TRANSNATIONAL MEETING IN ZARAGOZA

The VET POWER Transnational Meeting in Zaragoza brought together European and African partners to advance vocational education. Hosted by MUNDUS, the event focused on curriculum innovation, electricity training units, and Work-Based Learning methodologies. Discover how this strategic collaboration is strengthening global partnerships and driving educational excellence across two continents.

INTERNATIONALISATION IN AFRICAN VET SCHOOLS

From the 6th to the 8th of May 2026, MUNDUS led a focused Capacity Building activity on internationalisation in Zaragoza within the VET-POWER project, addressed to VET directors and staff. Through theoretical sessions, study visits and practical workshops, African VET schools explored how to prepare, host and manage international mobility experiences in a sustainable way.

A NEW PARTNER JOINING THE PROJECT!

As we warmly thank SEPR for its vital role as past coordinator, we welcome GIP FIPAN to the project, bringing its technical and international expertise, while MUNDUS takes over coordination. Part of the French Ministry of Education, GIP FIPAN supports lifelong learning, vocational training, and inclusion. It manages major European projects through its P2ID pole, handles prior learning validation (VAE), and provides over 100 apprenticeship programs.
